🔗 Portfolio

### 📄 PROFILE

**Full Stack Developer** with 5 years of experience building scalable web and mobile applications using **TypeScript, React Native, Next.js** and **Node.js**.

Proven track record of delivering production-ready products used by **tens of thousands** of users, with a strong focus on **performance** and **usability**.

Experience working in international teams and fast-paced environments, contributing to both **frontend** and **backend** systems.

Recently expanding into AI-driven automation and backend integrations using **Python** and external APIs.

### 🧠 SKILLS

#### Frontend

- Typescript
- React
- React native
- Next.js

#### Backend

- Node.js
- Express
- REST APIs
- GraphQL

#### DevOps & Tools

- Fastlane
- Github actions
- Docker
- Linux
- Git

### 📁 PROFESSIONAL EXPERIENCE

#### Sonnen GmbH

Front end engineer

01/2023 – 10/2025 | Berlin

**Front-End Engineer** at Sonnen, a global leader in renewable energy, delivering mobile solutions that empower tens of thousands of active users and supporting the growth of the in-house engineering team.

- Developed and shipped a production mobile application (**React Native, TypeScript**) used by **tens of thousands of active users**
- Served as the first in-house mobile developer, conducting technical interviews and supporting the growth of the front-end team from its early stages to more than **15 engineers**.
- Collaborated closely with IoT and back-end teams in a cross-functional task force, contributing to the development of a **new generation of EV chargers**

#### Northdale UG

Full stack developer

06/2021 – 06/2022 | Berlin

Worked as a **Full-Stack Developer** in a fast-paced startup environment, contributing across the full development cycle.

- Played a key role in developing **Noloni**, a mobile video conferencing app for iOS and Android, built with **TypeScript, React Native**, and a **Node.js** back end running on a **Linux server**.
- Contributed to the development of supporting **React** web applications, including a **management dashboard** with insights and metrics, and a **customer care tool** to assist the support team.

#### MDSLab

Front end developer

01/2021 – 06/2021 | Remote

Collaborated as a **Front-End Developer** on the Doeasy web and mobile applications, a multi-vendor e-commerce platform.

- Contributed to the implementation of the UI for both web and mobile, using **React** and **React Native**.
- Gained first professional experience with modern JavaScript frameworks in a collaborative startup environment.
